## Rothesay

## Our bereavement process

Here are the steps we will take once we are notified of the death of one of our policyholders.

1. We will stop payments to the policyholder's bank account straight away ★ This helps to reduce the possibility of an overpayment

2. We will send a form for you to complete

This form collects all the details of the policyholder's estate, next of kin and other possible beneficiaries that we need to calculate and confirm any benefits that may be due

Please complete and return
 the form with the information requested. We will return any original certificates requested by recorded delivery

3. If any benefits are due, we will let you know the details

We will let you know if any benefits are due. If there are any benefits due, we will write to you with the details enclosing a payment instruction form for you to complete

4. We will let you know if there has been an overpayment

If any pension payments were made after the policyholder's death, or were paid in advance, there may be an overpayment which we will ask you to repay from the estate If probate is needed before an overpayment can be repaid, please let us know.
We understand this can take some time

5. If any benefits are due

We will start to pay any dependant's pension and also pay any lump sum due

We cannot make anypayment due until we receive a completed payment form

Please turn over for information on support and guidance.
